30% recycled plastic*
*not including the pump

Minimize energy use. Tork soap is proven effective in cold water*

*Based on testing at 20°C

Minimize impact

Tork soap ingredients have a low impact on aquatic life.*

* Based upon the EU Ecolabel, CDV (Critical Dilution Volume) related to Toxicity to aquatic organisms is below specified limits and is 2 times lower than the TORK Mildly Scented foam soap formula

9 out of 10
Tork soaps sold are made with at least
94%
ingredients from natural origins*

* according to global sales 2022, specification and ISO16128

By recycling paper hand towels with Tork PaperCircle®, we can help to reduce the carbon footprint together by 40%¹

¹ Potential CO₂ savings from recycling of used hand towels compared to incineration with energy recovery. Estimation based on a third party verified life cycle assessment for EU average conditions, where avoided processes from alternative use of fresh fibers and energy were considered.
